

3D Flower design Instructions

using **element™** by Le Chat
3 Dimensional Color Gel

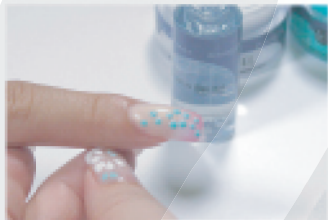

1. Use Le Chats Antiseptic Gel Cleanser to clean the surface of the nail (surface must be smooth, free of oil and dust)

2. Decide what pattern and color of flowers you would like to create

3. Pick up small drops of Le Chats Element™ 3D color gel using Le Chat Designer Brush

4. Lay drops on nail surface according to the pattern you have chosen

5. Clean the Design Brush then cut through the dots to create pedals

6. Cure design under UV Lamp (minimum 6 watt) for 2 minutes

7. Remove from lamp and wipe with Le Chat Antiseptic Gel Cleanser to remove sticky residue.

*You may incorporate Rhinestones, glitters, and other nail jewelry to be more creative.
